

Media Release

WEST LANCASHIRE
BOROUGH COUNCIL

16 October 2020

Issue: 109

Following the announcement that West Lancashire will move into the "Tier 3 Very High" Covid Alert Level we are reminding clinically extremely vulnerable residents who have no other support in place from their household, support bubble or neighbours and who may need additional support to arrange online shopping or prescription deliveries, to contact West Lancs Together on the free helpline 0800 616 667, Monday to Friday 9am-5pm.

Advice on the government website advises clinically extremely vulnerable residents to stay at home as much as possible and significantly reduce shopping trips, shopping online where possible. West Lancashire Together can help signpost you to online shopping for food and household items and for prescription deliveries if no other support is available.

Further information about West Lancs Together is available on the Council website www.westlancs.gov.uk
